ST MARY'S WAVENDON C OF E PRIMARY SCHOOL

Proud to be part of Inspiring Futures through Learning

YEAR 4 NEWSLETTER

Our Community, Our Story

In Year 4 the children are learning about the world and how it is represented on maps. They will discover the different countries and cities of Europe as well as recapping the countries and cities of the UK. They will specifically focus on Italy and will learn the key human and physical features of the country before focusing on the region of Campania. The children will learn about plate tectonics, earthquakes and volcanoes and will complete two Campania case studies. They will then use their knowledge to compare their own region in England with Campania.

Science

In Science, Year 4 will learn to group and classify living things by exploring their observable features, starting with animals and progressing to plants, then using classification keys. They apply this knowledge to identify real living things in their local area, strengthening their understanding of habitats and the conditions organisms need to survive.

Important Reminders

Please keep encouraging your child to use TT Rock Stars whenever they can. A little bit of practice, as often as possible, really helps them feel confident with their times tables. Don't forget the children need to wear their PE kits on a Thursday, as well as bringing footwear for Forest School, such as wellingtons.

Boom reader

Please remember to upload your child's reading sessions onto Boom Reader. Regular uploads help us keep track of their progress and celebrate their hard work.
Children who log five reads a week will earn a raffle ticket for our end-of-term draw to win a book of their choice. Thank you for supporting their reading at home!

Upcoming Events

Curriculum Evening - in the school hall 24th september

Harvest Art exhibition - at St. Mary's Church from 2pm to 5pm on saturday 26th September

Macmillan coffee morning - 25th September

School photos - 30th September and 1st October
